

# DYMAX WORK TOOLS

**HEAVY DUTY GENERAL PURPOSE BUCKETS** FOR WHEEL LOADERS, TOOLCARRIERS AND TELEHANDLERS

## OVERVIEW

Dymax Heavy Duty General Purpose Buckets for Wheel Loaders are ruggedly built for years of productive use. These GP Buckets are suited for machines with higher breakout forces, and are designed to match individual loader characteristics, typically yielding additional capacity and production over standard buckets from other manufacturers.

These general purpose buckets feature a wedge floor design that increases the structural integrity of the bucket, while improving the loading characteristics over flat floor buckets.

## FEATURES AND SPECIFICATIONS

- Made for wheel loaders, track loaders and toolcarriers.
- Wedge floor design increases structural integrity.
- Buckets are available in direct pin-on models or with hooks installed to work with the Dymax coupler system or other popular couplers.
- Can be equipped with OEM bolt on cutting edges or teeth if specified.
- Optional rear bolt on wear plates are available.
- Available for a wide range of machine sizes and in a variety of sizes and widths.
- Available from 3.25 to 9.5 cyd sizes.
