

DYMAX WORK TOOLS

ROLLOUT BUCKET FOR WHEEL LOADERS

OVERVIEW

Dymax High Dump Roll Out Buckets are the solution to high dump clearance requirements, and are backed by the best service in the industry.

Especially popular for loading feed trucks at dairies, loading debris into tub grinders and working around landfill/transfer station applications, these high dump rollout buckets are made for wheel loaders and toolcarriers.

These buckets can be specially engineered to handle a variety of materials, making it the ideal tool for applications where material type, density and abrasiveness may vary, such as landfills and recycling centers.

Dymax High Dump Roll Out Buckets incorporate a single, vertically-mounted dump cylinder, which significantly improves the ratio of cylinder stroke to dump motion. It also reduces metal fatigue found on roll out buckets with floor pockets and two bottom-mounted dump cylinders.

FEATURES AND SPECIFICATIONS

- For wheel loaders and toolcarriers.
- Can be ordered for specific material types and special applications.
- Equipped with OEM or Dymax bolt-on cutting edges.
- Available in a variety of widths, and in capacities up to 12 cubic yards.
- Open bucket design for easy loading and rollout.
- Grapples are available if specified .
(capacity is reduced when using grapples)

Standard Model Specifications

Cylinder Bore	4.51
Cylinder Rod Diameter (in.)	2.25
Cylinder Stroke (in.)	24
Moldboard Thickness (in.)	3/16, 3/8, 1/2
Bolt-on Cutting Edge	OEM or Dymax
Wear Pads	Standard Bolt-on
