

DYMAX WORK TOOLS

WOODCHIP BUCKETS FOR WHEEL LOADERS, TRACK LOADERS AND TOOLCARRIERS

OVERVIEW

Dymax Woodchip Buckets are designed to match the machine capabilities to the weight of the material, yielding the highest possible productivity. Optional visibility screens in the upper sections provide increased safety and productivity for the operator. Certain models feature a z-bar clearance pocket depending on capacity and machine loader arm configuration.

Designed by skilled engineers in northeast Kansas, Dymax Woodchip Buckets are ideal for woodchips and other materials such as sugar cane residue, corn cobs, cinders, dry peat and other extra light materials. Buckets are suited for materials weighing 400lbs per cubic yard up to 900lbs per cubic yard.

FEATURES AND SPECIFICATIONS

- For extra light material moving.
- For wheel loaders, track loaders and toolcarriers.
- Suitable for materials weighing between 400 and 900 pounds per cubic yard.
- Radius of bucket wrapper is calculated to ensure easy loading and clean dumping characteristics.
- Optional visibility screens available.
