

Loader Rake and Rake Bucket

for Wheel Loaders

Loader Rake

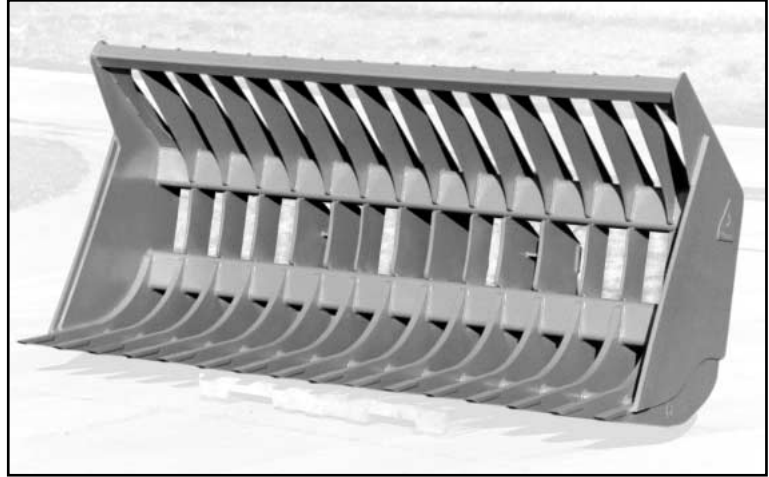

- **Dymax Rakes** for Wheel Loaders and Toolcarriers are ruggedly designed and manufactured tools for piling brush, stacking and carrying debris, and loading trucks.
- **Dymax Rakes** for Wheel Loaders and Toolcarriers can be used for limited root removal and land clearing.
- Features include thick, fabricated teeth that are designed to match the machine's ability to produce.
- The backside of **Dymax Rakes** features a serrated bar which is the perfect tool for backdragging and smoothing raked ground.

Loader Rake and Rake Bucket

Rake Bucket

The Right Bucket for Your Cleanup Job

-
- **Dymax Rake Buckets for Wheel Loaders and Toolcarriers** are ideal tools for the general cleanup of storm debris, loading trucks and other applications that call for a loading tool that allows smaller items to fall through.
 - **Dymax Rake Buckets** feature individual tines that can be spaced according to the customer's specifications.
 - The tines feature a weld-on tip that is comprised of hardened steel and is replaceable when worn or damaged.
 - **Dymax Rake Buckets** have been used in such diverse applications as ditch maintenance, small aggregate sorting jobs and tornado damage cleanup.
