

# DYMAX WORK TOOLS

## PALLET FORKS FOR WHEEL LOADERS, TRACK LOADERS AND TOOLCARRIERS

### OVERVIEW

Dymax Pallet Forks for wheel loaders, toolcarriers and track loaders are the ideal tool for handling a multitude of materials.

Dymax Pallet Forks provide a convenient alternative to a dedicated forklift.

Dymax standard model pallet forks (shown here) feature a see-through carriage assembly, ensuring good visibility for pick up and placing loaded pallets and other materials such as pipe.

### FEATURES AND SPECIFICATIONS

- Standard models feature shaft mounted non swinging tines.
- All fork tines are forged steel and manually adjustable left and right.
- See-through carriage assembly provides operators with good visibility for pickup and placing loaded pallets and construction materials and pipe.
- Available as direct pin-on models, or can be setup with coupler hooks to work with the Dymax coupler system or other popular coupler models.
- Optional swinging tines are available upon request.
