

DYMAX WORK TOOLS

SEMI-U DOZER BLADE

OVERVIEW

Dymax Semi-U Dozer Blades feature a combination of straight and u-blade characteristics and are built tough to withstand all types of mining applications. The wings of the blade provide improved load retention and yield higher capacities over traditional straight dozer blades. Dymax Semi-U Dozer Blades can be found working in general dozing operations such as road construction but also working in global mining operations including iron ore mines, copper mines, gold mines and coal mines.

FEATURES AND SPECIFICATIONS

- 2 year warranty - 5,000 hour warranty.
- Built with a 25° wing angle.
- Includes replaceable OEM brand cutting edges and other specialty edges available upon request.
- Fits factory outside mount push arms or can be paired with a set of Dymax push arms on some machine brands.
- Available with RokGard Wear Package for severe abrasion resistance and moderate to high impact environments.
- Available with Hardox 400 and Hardox 500 Wear Package for high impact, abrasive applications.
- Available with white iron wear blocks, side replacement shrouds and other types of wear protection.
- Available with optional rock guards installed on the top moldboard assembly.
