

# DYMAX WORK TOOLS

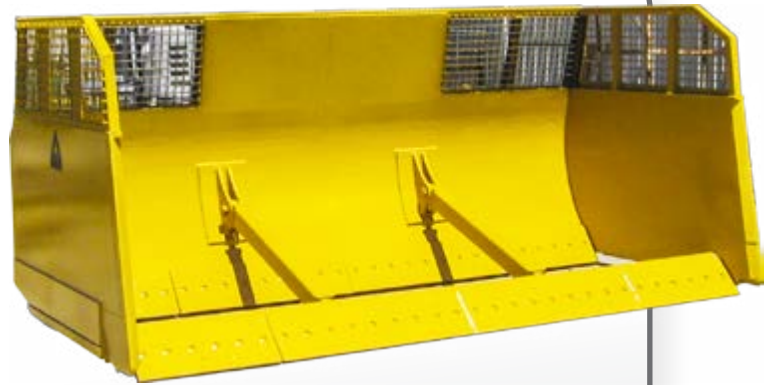

## WOODCHIP BOWLDOSERS

### OVERVIEW

Dymax Woodchip Bowldozers feature large side walls and contain more material than traditional woodchip U-blades. The leading edge of the Dymax Woodchip Bowldozer cuts the material, allowing the operator to fill the box section completely, then drift the load reducing side spill, maximizing capacity.

Dymax Woodchip Bowldozers are ideal for hog fuel plants that use wood chips as fuel, and are frequently used for slot dozing feeding hoppers.

Dymax Woodchip Bowldozer Blades are available for Caterpillar, Komatsu, John Deere and Liebherr Crawler Dozer and Track Type Tractors and Caterpillar and Komatsu Wheel Dozers. On some wheel dozer models, machine modification is required for the lifting cylinder arrangement.

### FEATURES AND SPECIFICATIONS

- 2 year - 5,000 hour warranty.
- Box weld constructed heavy duty side walls.
- Includes replaceable OEM brand cutting edges and replaceable sole plate cutting edges on the bottom side of the back dozer moldboard.
