

Tools for Telescopic Material Handlers

- **Dymax Tools for Telescopic Material Handlers** are designed and manufactured to the same standards and levels of quality as the well known **Dymax Rock Buckets** and **Dymax Tree Shears**.
- **Dymax Telescopic Material Handler Tools** were conceived and born in the harsh environment of western Kansas, where summer temperatures exceed 100°F and winter storms see the mercury plunge to -20°F or less!

- Harsh conditions demand heavy duty components - hydraulic cylinders, fittings, hoses, etc. - and a similar approach to design and fabrication.
- **Dymax Tools for Telescopic Material Handlers** include **Big Bale Handlers, Hay and Manure Forks, General Purpose and Specialty Buckets, Quick Couplers** designed to adapt to unique attachment hookups, **Pallet Forks with Hydraulically Adjustable Tines** and more.
- **Dymax** specializes in custom engineered attachments, matched to the requirements of individual applications. Though we have our “line” of standard products, no request is too strange nor quantity too low for us to do our best to meet your needs.
- Call **Dymax** today for **Telescopic Material Handler Tools!**

Tools for Telescopic Material Handlers

- **Dymax Grapple Buckets for Telescopic Handlers** feature removable side plates which add to the versatility of the bucket.

• Other **Dymax** attachments that work well with Telescopic Handlers are **snow plows, brooms and stacking forks.**

- **Pallet Forks with Hydraulically Adjustable Tines** are another popular tool in the many applications for Telescopic Handlers.
- Call **Dymax** today for **High Quality, Value Added Tools for Telescopic Handlers** - at work in agriculture, construction, material handling and other markets across North America.

- **Dymax Quick Couplers for Telescopic Handlers** are hydraulically locking, which increase productivity and reduce exposure to workman's compensation claims.
- **Dymax Quick Couplers for Telescopic Handlers** are also available to adapt one brand of attachments to a different make machine.
