

## Bale Spears

for Skid-Steer Loaders, Agricultural Tractors and Small Wheel Loaders

- 
- **Dymax Bale Spears** are designed and manufactured for long life and durability.
  - The open design of **Dymax Bale Spears** eliminates unnecessary weight, thereby increasing bale handling capacity.
  - The exact spear configuration can be specified by the customer - above or below the stabilizer prods.
  - Replaceable tine is forged, tapered and heat treated.
  - Other configurations are available.
  - **Dymax** makes a number of other agricultural related tools, including **Big Bale Handlers, High Dump Roll Out Buckets, Grapple Buckets, Hay Bale Squeezes** and **Hay and Manure Forks**.
  - Contact a **Dymax** sales representative to design a **Dymax Bale Spear** to meet your requirements or for any of the other high-quality **Dymax Attachments**.
-

## Bale Spears

Photo on front shows the **Dymax Bale Spear** with single tine above the stabilizer prods.

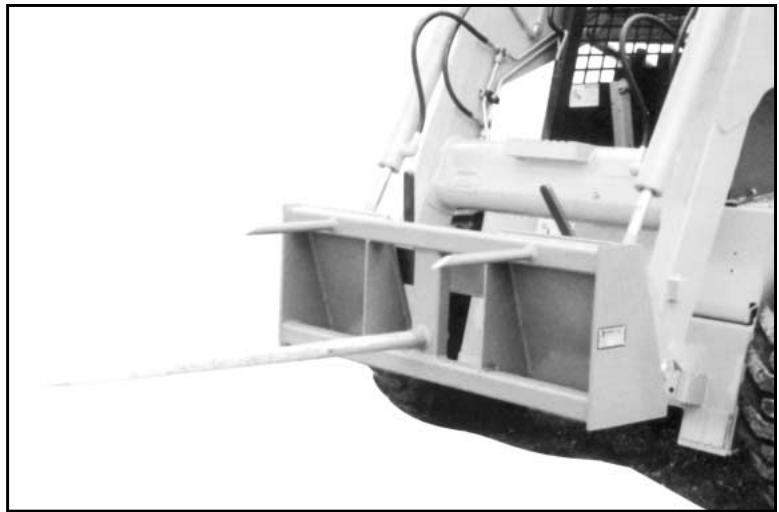

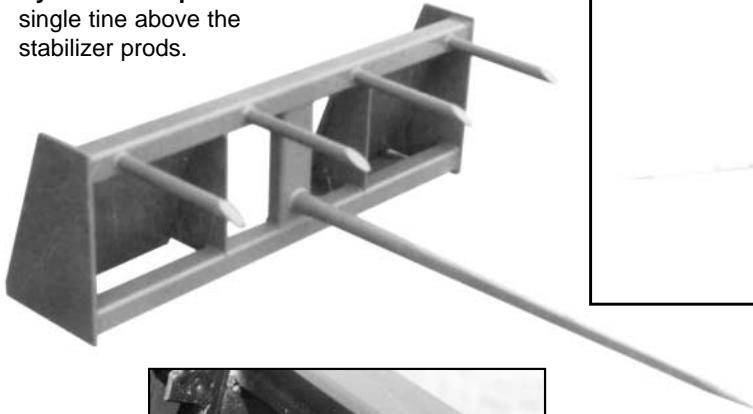

Photo above right shows the tine below the two stabilizer prods.

Photo above left depicts the tine below four stabilizer prods, as requested by customer.

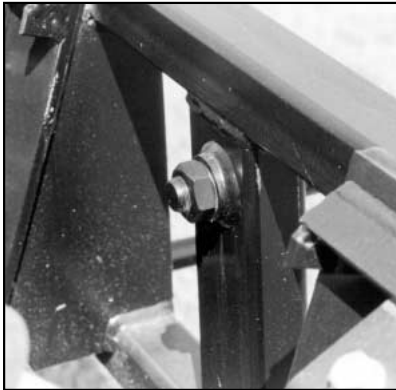

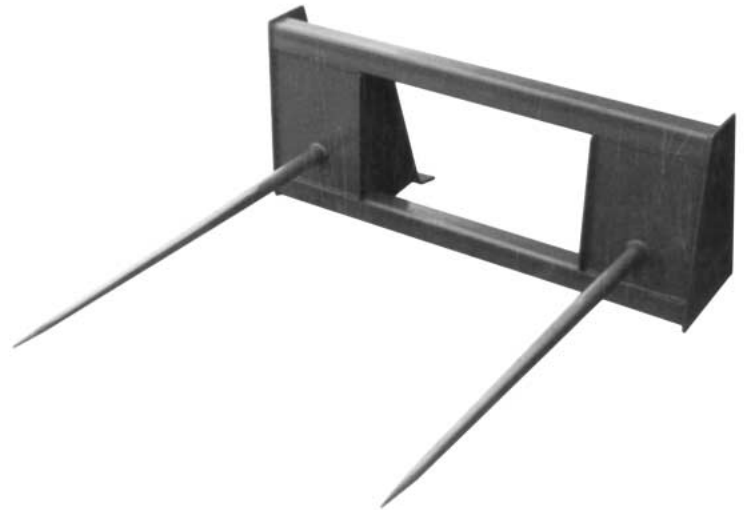

Photo left shows the heavy duty nut used to attach tine to frame, which also makes tine replacement easy to accomplish in the field.

Photo below depicts two tine design without any bale prods.
