

DYMAX WORK TOOLS

HYDRAULIC ROTATION GRAPPLE FOR BACKHOE LOADERS AND EXCAVATORS

OVERVIEW

Dymax Hydraulic Rotating Grapples for backhoe loaders and excavators are built to last, and like all Dymax products, are backed by the best service in the industry.

Dymax Hydraulic Rotating Grapples are ideal in scrap handling applications, construction sites, disaster cleanup and demolition cleanup.

Perfect for contractors, cities and county highway departments, the Dymax rotational grapple works well in loading operations, separating and sorting materials.

FEATURES AND SPECIFICATIONS

- 2 over 3 tine box weld construction.
- Full integrated 360° rotator with needle valves.
- Heavy duty cylinder rams with built-in positive load holding valve ensure positive grip in case of pressure loss.
- Include pins for attaching to machine.
- Available for 3-30T excavators and backhoe loaders.
- Machine requires (2) hydraulic circuits with two-way flow abilities. Contact Dymax sales for more information concerning hydraulic requirements for the machine.
