

Ditch Cleaning Buckets

For Hydraulic Excavators

Standard Ditch Cleaning Buckets

Hydraulic Tilt Ditch Cleaning Buckets

Dymax Ditch Cleaning Buckets for Hydraulic Excavators are built to provide years of use and are backed by the best service in the industry.

Ideally used for maintaining ditches or loading loose light weight material that has already been excavated or broken loose.

Dymax Ditch Cleaning Buckets are available with drainage holes which allow wet material to empty without sticking.

Available with bolt on cutting edge or can be setup with smooth weld in base edge assembly.

Dymax Ditch Cleaning Buckets are designed around each machine and can be setup to work with most quick coupler systems or pinned directly to the excavator stick. Models are available in standard configuration or with 90 degrees of hydraulic tilt.
