

DYMAX WORK TOOLS

GENERAL PURPOSE MATERIAL BUCKETS

OVERVIEW

Dymax General Purpose Material Handling Buckets for Wheel Loaders are ideally suited for machines under 200 horsepower and are designed to match individual loader characteristics. These material handling buckets typically yield additional capacity over standard buckets from other manufacturers.

General purpose buckets feature flat floor construction and bottom wear pads comprised of high tensile steel. Optional rear bolt-on wear plates are available if requested.

FEATURES AND SPECIFICATIONS

- General purpose buckets are made for material handling.
- Fits wheel loaders, toolcarriers and telehandlers.
- Available in direct pin-on models or with hooks installed to work with the Dymax coupler system or other popular couplers.
- Can be equipped with OEM bolt-on cutting edges or teeth.
- Available for a wide range of machine sizes and in a variety of sizes and widths.
