

RailCar Couplers

Wheel Loaders & Toolcarriers

Dymax RailCar Couplers for wheel loaders and toolcarriers are built too last and feature heavy duty construction

Equipped with standard railroad cast knuckle the **Dymax Railcar Coupler** is available in a front mount or rear mount configuration. Contact **Dymax** for more details on rear mount railcar couplers.

Available in manual pin, hydraulic pin or pneumatic-air pin depending on how your machine is equipped.

All front mount models feature a pivoting knuckle and free slide assembly.

Dymax Rear Mount RailCar Couplers require welding and possible counterweight removal.

Contact **Dymax Sales** for more information on **Dymax Railcar Couplers 1-800-530-5407**. Custom Designs are available to meet your requirements.
