

DYMAX WORK TOOLS

TRANSFER STATION REFUSE HANDLING BUCKETS FOR WHEEL LOADERS

OVERVIEW

Dymax Refuse Buckets for wheel loaders to handle larger loads than with standard buckets.

Dymax Transfer Station and Refuse Buckets are designed around each application to maximize efficiency when working in refuse and landfill operations.

Some models feature a longer flat floor design for loading into trucks below the transfer station floor. The longer floor aids the operators in compacting trash more efficiently while in the truck.

FEATURES AND SPECIFICATIONS

- **35-50% larger capacity than traditional General Purpose Buckets.**
- **Replaceable bolt-on cutting edges standard.**
- **Optional rubber cutting edge solutions available.**
- **Some models feature see-through screen moldboard construction, along with interior bucket ribs, to help prolong bucket service life and increase structural integrity.**
- **Heavy duty floor construction with replaceable high tensile strength steel wear plates.**
- **Special designs available upon request.**
- **Available for Class 40-90 machines in 4-14 cyd capacities.**
