

Skeleton Buckets

Skid Steer Loaders

Dymax Skeleton Buckets for skid steer loaders are ideal for sorting unwanted materials.

Dymax Skeleton Buckets are available with a reversible bolt on cutting edge or can be setup with teeth.

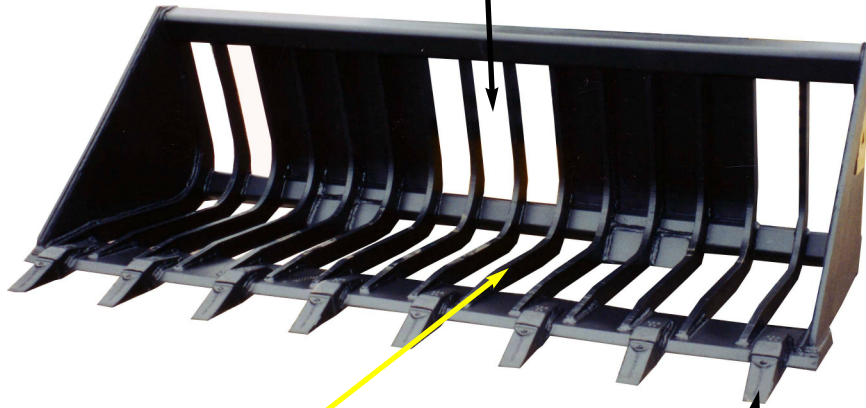

Available in mild steel tine configuration or with high tensile steel tines depending on the application.

A variety of tine spacings and capacities are available to meet your application requirements. Most common tine spacings are 4, 6 and 8 inches.

Setup with universal skid steer loader coupler hooks to work with most brands of skid steer loaders.

Contact **Dymax Sales 1-800-530-5407** for more information or your local equipment dealer.

Custom tine spacing available to meet your requirements

Heavy duty solid steel ribs

Available with replacement teeth or bolt on cutting edge
