

DYMAX WORK TOOLS

TREE SAWS FOR SKID STEER LOADERS

OVERVIEW

The Dymax Tree Saw is the best engineered, toughest tree saw on the market. Backed by outstanding service and support, the Dymax Tree Saw delivers a high speed, power packed performance that spins circles around the competition.

These tree saws for skid steers are available as fixed boom or swing boom models. Fixed boom models are available in standard flow or high flow. Swing boom models are only available for high flow machines. Hoses to machine lines are sold separately and must be specified.

Dymax Tree Saws feature replaceable bolt-on carbide teeth, which are guaranteed to stay tight. Life of teeth will vary and is subject to a variety of elements inherent with land clearing applications.

FEATURES AND SPECIFICATIONS

- **Heavy duty, high efficiency gear motor with heavy duty bearing carrier.**
- **Includes hoses for connection to machine lines.** (*DX-SW-FXB-30-SS-SFSS model also includes disconnects*)
- **Optional sprayer system available.**
- **Swing Boom models feature swing control through use of priority flow control systems.**
- **Swing Boom models require case drain line.**

Model No.	Description	Disk Size (Thick x Diameter)	Flow Rates GPM (LPM)	Weight lbs (kg)
Fixed Boom Saw Models				
DX-SW-FXB-30-SS-SFSS	Tree Saw - 30" cutting disk - Std. Flow Skid Steer	1/2 in x 30 in	20-26 (76-98)	1,010 (458)
DX-SW-FXB-38.HD-SS-MFSS	Tree Saw - 38" cutting capacity - Heavy Disk - Med. Flow Skid Steer	3/4 in x 38 in	26-33 (98-124)	1,370 (621)
DX-SW-FXB-38.HD-SS-HFSS	Tree Saw - 38" cutting disk - Heavy Disk - High Flow Skid Steer	3/4 in x 38 in	34-41 (127-154)	1,370 (621)
Swing Boom Saw Models				
DX-SW-SWB-38.HD-SS-MFSS	Tree Saw - 38" cutting disk - Heavy Disk - Med. Flow Skid Steer	3/4 in x 38 in	26-33 (98-124)	1,370 (621)
DX-SW-SWB-38.HD-SS-HFSS	Tree Saw - 38" cutting capacity - Heavy Disk - High Flow Skid Steer	3/4 in x 38 in	34-41 (127-154)	1,370 (621)
