

Block Handling Quick Couplers

For Wheel Loaders & Track Loaders

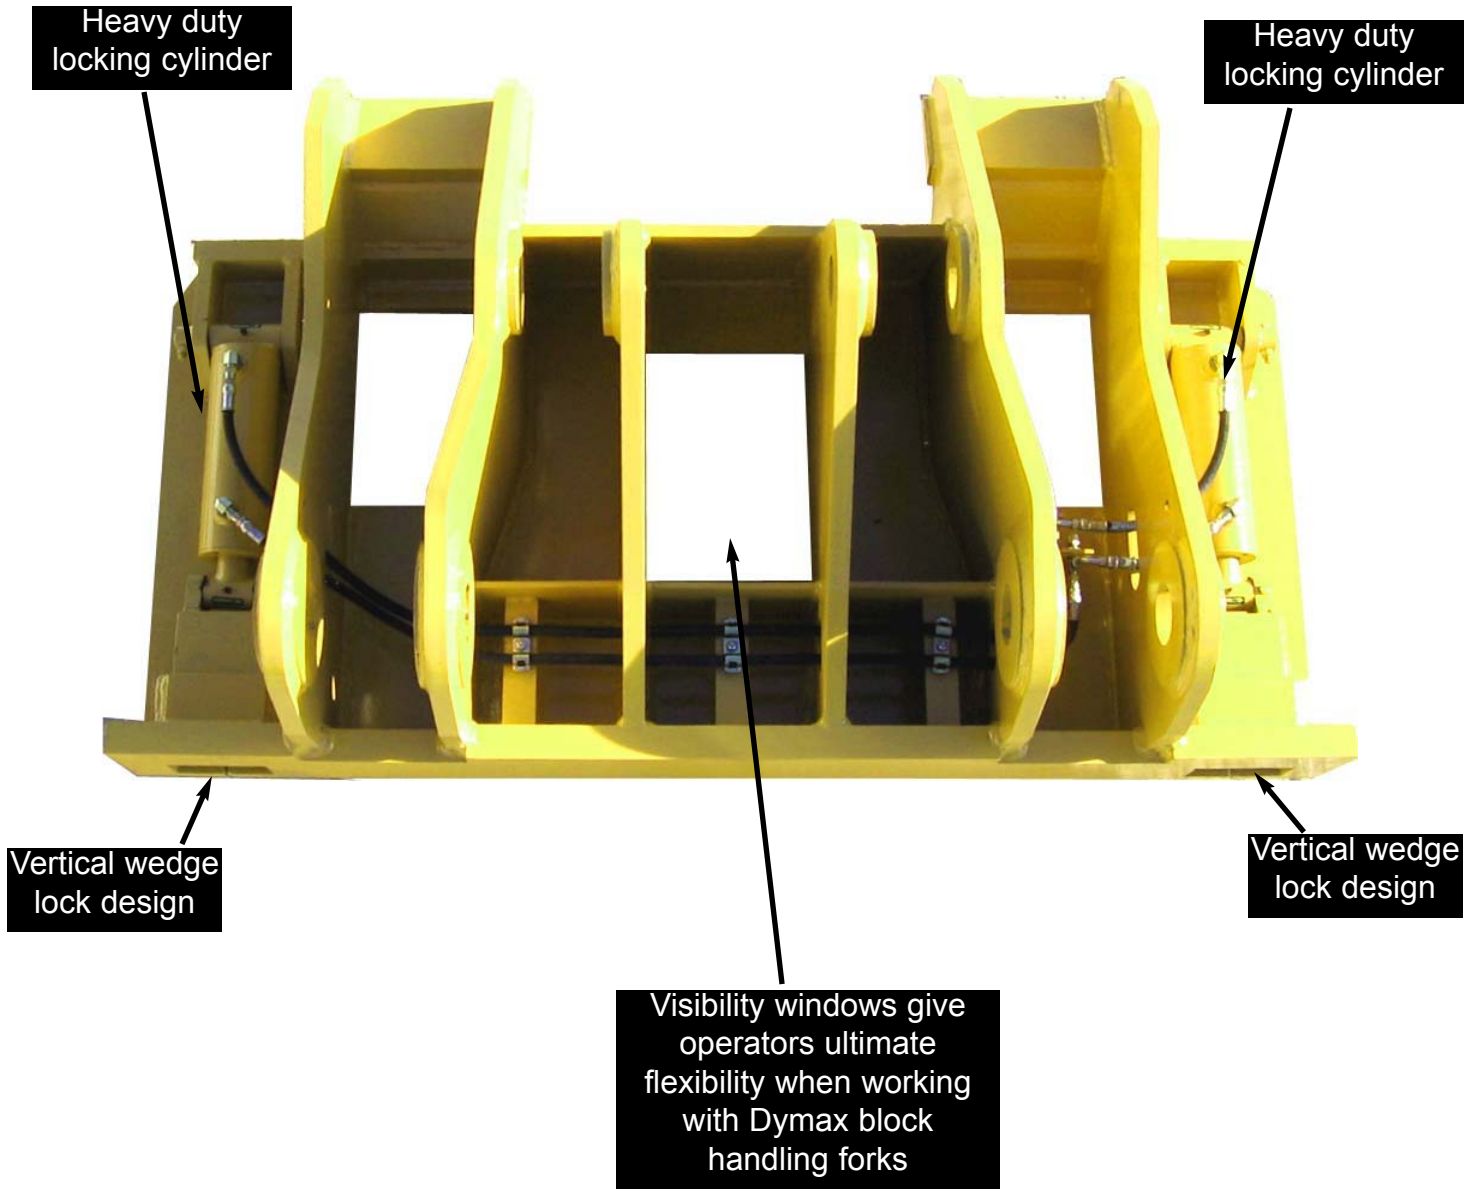

Dymax Block Handling Quick Couplers for wheel loaders are designed to utilize the maximum lifting and breakout capacity of the given machine.

Equipped with either two or four heavy duty locking cylinders the **Dymax Block Handling Quick Coupler** features heavy duty construction to provide long life in quarry environments.

Models can be setup with visibility window to increase operator visibility when handling large rocks and blocks.

Dymax Block Handling Quick Couplers require 3rd function hydraulics. 24v Diverter style hydraulic kits are available.

Ideal for working with **Dymax Block Handling Forks, Buckets** and other tools in quarry environments. Contact **Dymax Sales 1-800-530-5407** for more information.

Materials and specifications subject to change without notice.
